

# PETITION

**To the Honourable, The Speaker and Members of the House of Representatives Assembled in Parliament:**

The Petition of certain users of the Great Northern Highway, Western Australia, draws to the attention of the House, the poor and unsafe condition of the section of the Great Northern Highway known as the 'Bindi Bindi bends'. Your Petitioners therefore request the House to urgently inject funds to commence the road works, as per the plans that are already agreed and in place, to widen, straighten, resurface and include passing lanes at 5km intervals to improve traffic flow and safety.
